CAREER OBJECTIVE

Leveraging a strong academic foundation in data analytics, I am an aspiring Analyst prepared to contribute meaningfully to operational efficiency and digital transformation initiatives. I possess expertise in data visualization and the application of strategic insights to effectively manage risk and support regulatory compliance within the organization. I am eager to apply my technical proficiency and results-oriented mindset to deliver impactful, data-driven solutions that demonstrably enhance business performance.

SKILLS

- **Programming & Tools:** Python (Pandas, NumPy, Scikit-learn), C (Problem Solving, DSA Implementation), Java (OOP), R,(Statistical Computing, Visualization), SQL (Database Management, Query Optimization), Power BI, Tableau (Dashboarding, Reporting), Machine Learning & AI(Supervised & Unsupervised Learning),
- **Data Science Concepts:** Data Mining, Data Structures & Algorithms (DSA), Statistical Analysis, Data Visualisation Tools.
- **Soft Skills:** Communication, Leadership, Teamwork, Problem-Solving, Critical Thinking, Time Management, Adaptability, Documentation, Negotiation, Creativity, Presentation Skills, Collaboration
- **Interests:** Blogging, Reading, and Travelling

EDUCATION

Loyola Academy

B.Sc.Computer Data Science and Data Analytics Engineering | June 2023 - May 2026

- CGPA:9.3/10

LEADERSHIP EXPERIENCE

- **Student Council – Club Head (Coding, App & Web Design)**

Led 80+ students through weekly tech sessions and workshops, increasing participation by 60% and driving innovation in coding, app, and web development.

- **AICUF Committee – Documentation Coordinator**

Managed documentation for 6 youth events, improving reporting, follow-ups, and future event planning through structured records and insights.

PROJECT AND CERTIFICATIONS

Tata Forage – Data Visualisation

Built interactive Power BI dashboards and used data storytelling to support business decision-making.

IBM SkillBuild – AI Agent Architect | NLP, Python, Gradio

Developed an AI-powered legal assistant to simplify and translate Indian laws into plain language.

Acmegrade – Python for Data Science | Data Cleaning, Recommendation System

Performed data preprocessing, analysis, and visualization and built a movie recommendation system.

Key Projects:

- Sales Performance Dashboard | KPIs & trends
- Anomaly Detection System | ML-based failure prediction
- Movie Recommendation Engine | Personalized content
- Customer Analytics Dashboard | Churn & Behavior Insights
